## Webinar 1 – "Unlocking Educational Potential: Integrating AR and VR in Education"

**As part of the THE POWER OF AR AND VR FOR LEARNING THROUGH INNOVATIVE TECHNOLOGIES project, the first webinar entitled "Unlocking Educational Potential: Integrating AR and VR in Education" was held.**
**During the webinar, the IO1 project results were presented, focusing on the possibilities of using Augmented Reality (AR) and Virtual Reality (VR) technologies in education. The prepared materials and solutions were also introduced, together with their potential application in educational practice.**

**AThe webinar provided an opportunity to present the outcomes of the project activities carried out so far, exchange experiences, and discuss the possibilities of using innovative technologies to support teaching and learning.**
**Thank you to all participants for joining the webinar, their interest, and their active engagement!**
